## **J25 Legacy**

Plugin for Joomla!

Version 1.2

## Preface

The plugin helps transition from Joomla 2.5 to Joomla 3.x by providing support for the following to extensions that are not 3.x-compatible:

- JHtml('behavior.mootools') API call which leads to the following error:  
JHtmlBehavior::mootools not found.
- DS constant

## Installation

Just install the extension file plg\_j25\_legacy.zip and enable the plugin.
